What does the rest of the world think of U.S. domestic and foreign policy? While the U.S. is perceived as a beacon of democracy, how does it compare to other democratic nations? Americans are continually told through their media that freedom and democracy are being given to people abroad, but is it true?

Entertaining, yet informative and shot in 10 countries, **Considering Democracy** weaves together seemingly different topics into an interconnected tapestry. People from around the world act as a way for Americans to see a reflection of political power in the United States.
